

Profile

Innovative and versatile Senior Software Developer with extensive experience in designing, developing, and deploying software solutions to solve complex business challenges. Proficient in a wide range of programming languages, frameworks, and development methodologies, with a strong focus on web application development and technologies. Demonstrates a proven ability to quickly adapt to emerging tools and platforms to deliver scalable, high-performance solutions.

Experienced in building and maintaining applications across FinTech, E commerce, ERP, and SAAS domains, contributing to secure, efficient, and user-centric platforms. Adept at managing projects from initial concept through to deployment and maintenance, with strong communication and leadership skills.

Holds a strong academic foundation in mathematics, with a degree major in Mathematics, and possesses hands-on expertise in Machine Learning, Artificial Intelligence, and Generative AI—enabling the development of intelligent, data-driven systems and automation solutions.

Technologies & Tools

- Laravel and CodeIgniter
- PHP development
- E-commerce, ERP, and CRM solutions
- SQL database management
- Express.js and Node.js
- React and Next.js
- Progressive web applications
- Blockchain technology
- Web services integration
- Hyperledger Fabric and Composer
- Solidity programming
- Version control with Git
- Containerization with Docker
- Chatbot development
- Ethereum DApps and smart contracts
- Mathematics expertise

Employment History

Techffodils Technologies LLP

October 2017 to Current

SENIOR DEVELOPER

Calicut, Kerala, India

- Strong experience in designing and developing enterprise systems, including handling systems that currently serve millions of users. Reviewed user requirements, analyzed, designed, implemented, installed, and delivered solutions.
- Performed **adaptive** and **perfective maintenance**, incorporating new features such as Progressive Web Applications (PWAs), and provided support for developing and adopting new technologies to keep pace with industry changes.

- Proven ability to develop system architectural solutions to best meet business needs.
- Supervised the development of an ERP system comprising accounting, CRM, sales, inventory, manufacturing, and other modules.
- Designed and implemented real-time trading platform applications for algorithmic trading and options trading.
- Developed and implemented complex web applications using **PHP, Node.js, React, and TypeScript**.
- Hands-on experience in creating blockchain applications and designing smart contracts for multi-level marketing software and e-commerce platforms.
- Designed decentralized applications on the Ethereum platform for ICOs.
- Experience working with **AWS services** including **S3** and **EC2**.
- Hands-on experience in **Large Language Model (LLM) fine-tuning** on custom datasets, **GGUF quantization**, **Retrieval-Augmented Generation (RAG)**, and **edge deployment**.

Infinite Open Source Solutions LLP

April 2015 to September 2017

SOFTWARE DEVELOPER

Calicut, Kerala, India

- Worked on 30+ projects in multi-level marketing software and E-commerce applications using PHP, CodeIgniter, and Laravel frameworks, with MySQL and PostgreSQL databases, along with front-end technologies such as Twig, Blade, Jade, and Bootstrap.
- Played a key role in developing cab taxi dispatch software, an on-demand taxi booking solution with a dispatch system, driver, and passenger applications—similar to Uber and Ola.
- Collaborated in all stages of the **Software Development Life Cycle (SDLC)**, from requirements gathering to production release.
- Maintained source control repositories using **Git** and **SVN** for version control and collaboration.
- Developed **RESTful APIs** for mobile applications to enable seamless integration and data exchange.

Education

College of Engineering Trivandrum (CET)

October 2014

MCA

Thiruvananthapuram, Kerala

GPA: 69%

Zamorins Guruvayurappan College

March 2011

BSc: Mathematics

Pokkunnu, Calicut

GPA: 73%

Courses and Certification

- **IBM Blockchain Foundation Developer** – <https://bit.ly/2m1TUUv>
- **IBM Blockchain Essentials** – <https://bit.ly/2kWTL4r>
- NPTEL Course on Blockchain Architecture Design
- **Udemy, Coursera, and Sololearn** Certifications in Advanced Node.js and React Application Development
- **Google** Certification in Machine Learning / Artificial Intelligence
- Advanced Machine Learning Training from **Convai Innovations Pvt. Ltd.**
- **Indian Institute of Remote Sensing (IIRS), ISRO** – Online course in Machine Learning for Remote Sensing applications
