SUMMARY

Dedicated and results-driven PHP Laravel Developer with extensive experience in backend development, RESTful API design, and delivering scalable, secure, and efficient web applications. Skilled in using Laravel, MySQL, and modern development tools to build robust systems with clean, maintainable code. Proven ability to solve complex problems, collaborate with cross-functional teams, and contribute to the success of high-impact projects. Passionate about continuous learning, clean architecture, and writing code that performs.

EXPERIENCE

- Senior PHP Developer

D3S Solutions ↗

02/2025 - Present

 - Leads the development team by providing technical guidance and support throughout the project lifecycle.
 - Actively involved in client interactions to gather requirements, clarify objectives, and ensure project alignment with business goals.
 - Responsible for project architecture design, focusing on scalability, performance, and maintainability.
 - Mentors junior developers, conducts code reviews, and promotes clean coding practices and standards.
