

TEJASWINI GODSE

Belgaum, Karnataka | 9738277351
godseteju@gmail.com

Summary

Over 8.3 years of experience in full-cycle web development, encompassing research, analysis, design, development, testing, and implementation. Adept at creating and enhancing inter/intranet sites with a strong focus on usability, functionality, and seamless navigation. A proven team player with a results-driven approach, consistently improving systems throughout their lifecycle to deliver optimized and scalable solutions.

Experience

SAPBOT Technologies | Karnataka, Bangalore

Senior PHP Developer | 11/2024 - 01/2025

- Developed web application using php and Yii and Vue.js for the front end.
- Wrote and executed various Postgres database queries.
- Delivered project requirements on time, implementing a TODO management system with specific user roles and permissions using Vue.js for a responsive and interactive front end.

ChampSoft | Karnataka, Bangalore

Senior Software Consultant | 03/2024 - 09/2024

I have been responsible for delivering high-quality technical solutions and strategic insights across various complex web development projects. My key responsibilities include:

- **Architecting Scalable Applications:** Designed and developed robust PHP-based solutions with a focus on scalability, reliability, and performance.
- **Front-End Development:** Delivered intuitive and responsive front-end solutions using HTML, CSS, JavaScript, jQuery, and Vue.js, ensuring a seamless user experience across multiple devices.
- **Technical Leadership:** Provided technical leadership to cross-functional teams, guiding junior developers and ensuring adherence to best practices in PHP, Laravel, Symfony, front-end technologies, and other modern frameworks.
- **API Development & Integration:** Led the development and integration of RESTful APIs for seamless communication between front-end and back-end systems, ensuring efficient data flow and interoperability with third-party services.
- **Database Design & Optimization:** Engineered complex database schemas and optimized MySQL queries for performance, ensuring high availability and integrity of data.
- **Code Review & Quality Assurance:** Conducted thorough code reviews, identifying potential issues, enforcing coding standards, and ensuring continuous integration (CI) and continuous delivery (CD) practices.

Sabado Technologies | Karnataka, Bangalore

Senior Consultant Developer | 07/2020 - 11/2022

- Developed web application using php and codeigniter & Laravel.
- Wrote and executed various MYSQL database queries.
- Involved in Non-Prod env deployment activity in AWS EC2 Instance
- Handled team of size 4
- involed in discussion with client for new requirements (Enhancement Features)

Provab Technosoft | Karnataka, Bangalore

Senior PHP Developer | 06/2019 - 12/2019

- Developed, tested, and maintained current systems written in php and CodeIgniter & Laravel.
- Worked with the client team on the integration and client-server communication.
- Collaborated with backend and client engineers to help build features and solve creative problems.
- Part of grooming session on Best Practices followed to maintain and write code

Pace Travels | Karnataka, Belgaum

Senior Software Developer | 07/2016 - 04/2019

- Developed, tested, and maintained current systems written in php and CodeIgniter & Laravel.
- Worked with the client team on the integration and client-server communication.

- Collaborated with backend and client engineers to help build features and solve creative problems.
- Leading the Team of size 4
- Training the juniors on the tech stack which we were using in our product

NICT Solutions | Karnataka, Belgaum
PHP Developer | 06/2015 - 06/2016

- Work closely with other developers and product managers.
- Consult with project managers, business analysts and development teams on application development and business plans.
- Create, document and execute software designs which may involve complicated workflows or multiple product areas.

Skills

PHP, Core PHP, JavaScript, JQuery, AWS EC2 Instance, AWS S3 Bucket, AWS Lambda Function, HTML, CSS, MySQL, Docker, GitHub, CodeIgniter, Laravel, Symfony, RestAPI, CI/CD, VueJS

Education

Visvesvaraya Technological University (VTU) | Belgaum, Karnataka
Computer Science and Engineering | 05/2015
Angadi Institute of Technology & Management

Project 1: Mindful Quest

- Resolved critical production bugs, ensuring system stability and improved performance.
- Led migration of the application from the Kohana framework to Laravel, enhancing maintainability and scalability.
- Upgraded the project's PHP version from 7 to 8, improving security, performance, and compatibility with modern libraries.
- Optimized the codebase to align with Laravel's best practices and PHP 8 standards.
- Ensured smooth transition and minimal downtime during migration and upgrades.

Project 2: GE Healthcare

- Written with object-oriented PHP Build application and database servers
- Developed the applications using CodeIgniter, Symfony & Laravel framework which is based on model template view design pattern.
- Developed custom tags to simplify the template code. Designed UI screens using templates, Ajax, Html, and JSON. Used Javascript for client side validation.
- Developed the analysis, design, and development.
- Scheduling tasks on windows task scheduler to run the Php scripts to generate reports for frequent interval of times and also send email alerts. Implemented a login module for user, registration of the products, placing the order and tracking the order.

Project 3: Ditofa

Helped create the Business-to-Customer Client Side Application, www.ditofa.com.

The main aim of this module is to provide all the detailed functionality related to package. We have developed all types of CRUD (Create, Update, Read and Delete) operations of the package.

Developed the applications using PHP CodeIgniter, Symfony & Laravel framework which is based on model template view design pattern. And MySQL as Database.

Features of Package Module:

- Admin can add new airline records.
- Admin can see all the airline details.
- Only admin can edit and update the records of the airline.
- Admin will be able to delete the records of the airline.

Project 4: Pacetravels (B2B)

- Involved in developing the Business-to-Business Client Side Application, <https://agent.pacetravels.com/>
- Coordinated with engineering and product teams in identification of customer requirements for new products and policies.
- Supported customers in optimization and improvement of existing features of all API applications.
- Implemented procedures for designing and development of new features for assigned applications.
- Resolved technical problems relating to API application by identification and fixing bugs.
- Involved with the site-wide redesign both with the backend coding and the front-end design.
- Collaborated with product management and engineering teams for development scalable integrations within applications.
- Developed the applications using PHP CodeIgniter & Laravel framework which is based on model template view design pattern. And MySQL as Database.

Project 5: Pacetravels (B2C)

- Involved in developing the Business-to-Customer Client Side Application, www.pacetravels.com
- Coordinated with engineering and product teams in identification of customer requirements for new products and policies.
- Supported customers in optimization and improvement of existing features of all API applications.
- Implemented procedures for designing and development of new features for assigned applications.
- Resolved technical problems relating to API application by identification and fixing bugs.
- Involved with the site-wide redesign both with the backend coding and the front-end design.
- Collaborated with product management and engineering teams for development scalable integrations within applications.
- Developed the applications using PHP CodeIgniter & Laravel framework which is based on model template view design pattern. And MySQL as Database.
