CAREER SUMMARY

Full Stack Developer with 7+ years of experience in building enterprise-grade ATS & HRMS applications using Angular (16/JS), Laravel, PHP, and SQL Server. Proven expertise in application migration (AngularJS → Angular 16), performance optimization, scalable API development, and data/reporting solutions. Recognized with multiple awards for delivering high-quality, business-impactful solutions.

CORE SKILLS

Frontend:

Angular 16, AngularJS

Backend:

PHP, Laravel, RESTful APIs, MVC Architecture

Database:

SQL Server (Optimization, Stored Procedures, Views, Functions, Indexing)

Data & Reporting:

Power BI, Bold BI, SSRS, Custom Report Builder

ETL & Migration:

SSIS, JSON transformations, Data Integrity Validation

Other Tools:

Git, JIRA, Visual Studio, Sublime

PROFESSIONAL EXPERIENCE

Oorwin Labs India Pvt. Ltd., Hyderabad

Product Engineer

Jan 2021 – Present

- Migrated enterprise ATS/HRMS application from AngularJS → Angular 16, boosting scalability & performance
- Built REST APIs in Laravel with authentication/security, powering high-traffic enterprise modules
- Spearheaded custom reporting migration from Power BI → Bold BI → Laravel-based Custom Builder, saving licensing costs and improving flexibility
- Developed interactive dashboards (Highcharts + Angular) with drill-down insights for decision-makers
- Executed large-scale SQL data migrations, applying transformations, validations, and integrity checks
- Optimized SQL performance (indexes, stored procedures), reducing execution time of critical queries by up to 40%
- Designed ETL workflows (SSIS) and enterprise reports
- Awarded Emerging Star of the Year 2023 for innovation in reporting solutions

Oorwin Labs India Pvt. Ltd., Hyderabad

Software Engineer

Sept 2019 – Dec 2020

- Delivered new ATS & HRMS features using AngularJS (UI) and Laravel (API backend)
- Built complex SQL procedures & views supporting data-heavy modules
- Collaborated with cross-functional teams to ensure delivery of bug-free, optimized modules

Oorwin Labs India Pvt. Ltd., Hyderabad

Trainee Engineer

Sept 2018 – Aug 2019

- Contributed to CRM module development with optimized binding operations
- Implemented JSON_QUERY / JSON Path solutions in SQL, reducing payload size & improving performance
- Created UI mockups (HTML, CSS, JavaScript) integrated with AngularJS

KEY PROJECTS

Oorwin ATS/HRMS Platform

Role: Full Stack Developer | Tech Stack: Angular 16, Laravel, SQL Server, Highcharts, SSIS

- Dashboard & Reporting Module: Designed and developed interactive dashboards with drill-down capabilities using Highcharts and Angular, enabling real-time insights for recruiters and decision-makers
- Custom Report Builder: Led the migration from Power BI → Bold BI → a custom Laravel-based report builder, significantly reducing licensing costs while increasing flexibility and user control
- Advanced Search & Job Board Integration: Built an advanced search module that fetches candidate data from multiple external job boards (Indeed, Monster, LinkedIn, etc.), processes and transforms the data, and migrates candidates into the centralized database with validation and deduplication logic
- Stored Procedures & Performance Optimization: Authored and optimized complex stored procedures, views, and indexes, reducing query execution time by up to 40% for data-intensive operations

Npa Worldwide Platform

Role: Frontend Developer | Tech Stack: Angular 17, AngularJS, RESTful APIs

- AngularJS to Angular 17 Migration: Converted the legacy AngularJS codebase to Angular 17, improving application performance, maintainability, and enabling adoption of modern Angular features (standalone components)
- UI/UX Modernization: Refactored UI components for better responsiveness and user experience across the platform

EDUCATION

B.Tech (Information Technology)

Rajamahendri Institute of Engineering & Technology, 2017

KEY ACHIEVEMENTS

Emerging Star of the Year 2023 – Oorwin Labs

Recognized for innovation in reporting solutions

Above & Beyond Award Q2 2020 – Oorwin Labs

Outstanding performance and dedication

Delivered cost-saving reporting migration

Power BI → Bold BI → Custom Builder migration project

Client Recognition

Consistently appreciated by clients for delivering interactive, scalable, and reliable solutions
