SUMMARY

Full Stack Web Engineer with 4.8+ years of experience building scalable web applications using modern frameworks and technologies. Expertise in backend development with Laravel, Node.js/Express, and frontend technologies including Vue.js, Nuxt.js, and React ecosystem. Proven track record of delivering high-performance, maintainable solutions for diverse client requirements across e-commerce, CRM, and enterprise applications.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, PHP, Python, HTML5, CSS3, SQL
Backend: Node.js, Express.js, Laravel, Redis, MySQL, PostgreSQL, Prisma ORM, RESTful APIs
Frontend: Vue.js, Nuxt.js, React, jQuery, Ajax, Tailwind CSS, Bootstrap, Bulma, PrimeVUE, PrimeFlex
Tools & Technologies: Git, Bitbucket, GitHub, Shopify, FilamentPHP, TALL Stack, Docker, Linux
Frameworks & Libraries: Express, Laravel Ecosystem, Vue/Nuxt Ecosystem, Livewire, Alpine.js

PROJECT

eCommerce CRM | *Laravel, Node.js, Express, TypeScript, MySQL, Redis, Docker, BullMQ, Prisma* Jan 2025 – Present

- Architected and developed core backend APIs using Node.js, Express, and TypeScript handling order processing, payment workflows, retry logic, and third-party integrations
- Designed high-performance APIs backed by MySQL and Redis for transactional consistency and caching, reducing response latency significantly
- Contributed to the Laravel-based admin portal enabling business users to manage payment gateways, configurations, and operational settings
- Containerized services using Docker for consistent development and production environments; collaborated on API contracts and deployment workflows

EXPERIENCE

Engineer - Web June 2023 – Present
CodeClouds Kolkata, India

- Architected and developed custom web applications using Node.js (Express), Laravel, Redis, and MySQL, serving 50K+ concurrent users with 99.9% uptime
- Optimized database queries and implemented Redis caching strategies, reducing API response times by 60% and improving application performance
- Led cross-functional collaboration with product and design teams to deliver scalable, secure backend systems aligned with business requirements
- Implemented comprehensive testing and CI/CD pipelines, reducing production bugs by 40% and accelerating deployment cycles
- Mentored junior developers on best practices in code quality, security standards, and system architecture

Software Developer April 2022 – April 2023
WebReinvent Technologies Pvt. Ltd. Delhi, India

- Designed and implemented user interfaces and backend APIs using Laravel and Vue.js for SaaS applications serving 5K+ users
- Conducted comprehensive testing and debugging, ensuring code quality and reducing post-deployment issues by 50%
- Integrated third-party APIs and payment gateways, expanding platform capabilities and revenue streams
- Participated in code reviews and contributed to technical documentation, improving team efficiency and knowledge sharing

Junior Back End Developer July 2021 – April 2022
Think Again Lab Kolkata, India

- Developed backend services and database schemas using Laravel and MySQL for client projects
- Implemented authentication, authorization, and data validation systems ensuring application security
- Worked in Agile environment, participating in sprint planning, daily standups, and retrospectives

EDUCATION

Vivekananda Mahavidyalaya, Haripal
Bachelor of Computer Application (BCA)

2018 – 2021
Kolkata, India

KEY ACHIEVEMENTS

- Optimized high-traffic application serving 50K+ concurrent users with 99.9% uptime through efficient caching and query optimization
- Reduced API response times by 60% through Redis implementation and database indexing strategies
- Achieved 100% on-time delivery rate across 20+ client projects while maintaining code quality standards
- Certified in Laravel Web Development and Shopify Development, demonstrating expertise in e-commerce solutions
