ABOUT ME

Driven by a deep passion for coding and problem-solving, I have accumulated eight years of extensive experience in software development. My portfolio includes a wide array of projects such as web and mobile applications, software systems, and database management. I am proficient in PHP, Laravel, Cake PHP, MVC, MySQL, jQuery, ReactJS and API integration. My commitment to continuous learning and staying updated with the latest technological advancements enables me to deliver innovative and efficient solutions. I am always eager to embrace new challenges and technologies to further enhance my development skills.

DIGITAL SKILLS

Windows7/10 / Ubuntu 15.04/ 16.04 LTS / POSTMAN / MySQL Workbench / Visual Studio IDE / Docker / AWS (EC2) / GitHub / Git / Twilio

Technical Skills

PHP / MySQL / MVC / LARAVEL / Cake PHP / API Integrations / React JS. / JavaScript / jQuery / Object-Oriented Programming / JSON / HTML5 / CSS / Bootstrap / RESTful API/ Laravel Livewire / Continuous integration and continuous delivery / PHP Unit / Agile (Scrum) / Socket.IO / Microservice architecture, REST API / SOLID principles / Web Development / Relational databases / Messaging systems / Stripe (Payment Gateway) / Python / XML / Instagram API / Facebook API / Pusher / AJAX / Unit Testing

WORK EXPERIENCE

Senior Software Engineer

Evervent [14/02/2022 - Current]

City: Mohali | **Country:** India

- **Technologies:** PHP, Laravel, Cake PHP, ReactJS, jQuery, MySQL
- The company primarily developed B2C software for the insurance business, including customer-facing platforms, ERP systems, POSP modules, and CRM solutions.
- Played a key role in designing and implementing a system that integrated APIs from multiple insurance companies into a unified software solution, simplifying data management and enhancing user experience.
- Integrated RESTful APIs to streamline communication between internal systems and third-party services, enabling efficient and secure data exchange.
- Designed and updated software databases to maintain data integrity and optimize performance, ensuring scalability and reliability for high-traffic applications.
- Led a team of developers, providing technical guidance and ensuring seamless coordination to meet project milestones effectively.
- Clearly and regularly communicated with management and technical support colleagues to ensure alignment on project goals and timelines.

Senior PHP Developer

Lodging Products & Services S.à.r.l [31/05/2020 – 31/01/2022]

City: 55, Avenue de la Liberté 1931 | **Country:** Luxembourg

- **Technologies:** Core PHP, jQuery, MySQL, CSS, HTML
- Developed a tool for companies operating across multiple sites, providing a centralized system for managing all contracts within the organization. It ensures seamless coordination across departments and timely contract management.
- Redesigned and optimized existing systems to enhance performance, scalability, and reliability.
- Identified bottlenecks and implemented solutions to improve system efficiency.

Application developer

Design Direct UK [01/06/2020 – 24/12/2020]

City: 85 Trinity Avenue Enfield, EN1 1HT | **Country:** United Kingdom

- **Technologies:** PHP, Laravel, jQuery, ReactJS, CSS, HTML, MySQL
- Specializes in creating tailored digital solutions, including e-commerce platforms, social media integration tools, and mobile application interfaces.
- Collaborated with the team to design and implement custom e-commerce platforms that meet clients' specific needs
- Ensured the smooth operation of client platforms by troubleshooting issues and rolling out updates
- Developed and maintained APIs that connected KIOSK systems and mobile applications with e-commerce platforms, delivering a cohesive user experience across multiple devices.

Software developer

Tech Innovations Technologies [26/05/2014 – 14/11/2018]

City: Cochin | **Country:** India

- **Technologies:** PHP, Laravel, Social Engine, MySQL, CSS, HTML, jQuery, Vue JS
- *Note:* The company was acquired by RCG Global Services (India) Pvt. Ltd. in 2019.
- Specialized in developing customized software solutions, including e-commerce platforms and social network applications, tailored to meet specific client needs.
- Led the development of a specialized chat application, integrating real-time messaging, user authentication, and data storage to enhance client communication.
- Developed social network applications, key features such as user authentication, profile management, real-time notifications, and content feeds, ensuring seamless user interactions
- Integrated third-party APIs and services to enhance functionality, such as social sharing and location-based services.
- Designed and optimized database schemas to support user data storage, retrieval, and performance.
- Utilized technologies like Web Sockets to develop real-time features such as instant messaging and live notifications.
- Designed and implemented essential features for product listings, shopping carts, payment processing, and order management to ensure a seamless shopping experience.
- Performed integration and functional testing to ensure seamless operation across components and systems.
- Maintained clear and detailed project documentation to assist in development, testing, and future updates.
