SUMMARY

I am a PHP/Laravel Developer with over 5 years of experience in building scalable web applications, ERP systems, and eCommerce platforms. I specialize in backend development, REST APIs, and database optimization, consistently delivering high-quality solutions. I thrive in fast-paced environments and take pride in collaborating with teams to achieve project success

EXPERIENCE

Graduate Specialist - PHP Backend Developer 11/2022 - Present
Nucore Software Solutions India

Technology company specializing in software solutions for travel and financial industries

- Developed and maintained ERP-based travel accounting modules used by agencies and airlines
- Implemented backend APIs and optimized database operations improving performance and reliability
- Worked on financial workflows including invoicing, reconciliation, ledgers, and reporting
- Improved system stability by debugging legacy code and enhancing module structures
- Worked on large-scale reporting modules and significantly improved performance by refactoring and optimizing heavy SQL queries
