PROFESSIONAL SUMMARY

Hard-working Full Stack PHP Developer with **12 years of experience in the IT industry**, including **10 years of expertise in PHP development**. Proficient in **PHP, Laravel, CodeIgniter**, with a strong background in both **backend and frontend development**. Skilled in designing scalable web applications, optimizing databases, and integrating RESTful APIs. Adept at working with **Bitbucket Pipelines, Docker, and cloud platforms** to streamline development and deployment processes. A collaborative team player with excellent problem-solving abilities, seeking a **permanent work-from-home opportunity** to contribute technical expertise, enhance team productivity, and deliver high-quality solutions efficiently.

SKILLS

- | | |
|--|--|
| • PHP | • CodeIgniter |
| • Laravel | • MySQL |
| • jQuery | • JS |
| • HTML5 | • CSS3 |
| • Angular | • RESTful API development |
| • React | • Payment Gateway Integration |
| • Vue.js | • AWS (EC2, S3, Lambda) |
| • JWT, OAuth2 | • Microservices architecture |
| • PHPUnit | • Docker (For containerized PHP applications) |
| • Composer (PHP dependency management) | • Bitbucket Pipelines (CI/CD automation for deployments) |
| • Git, GitHub, GitLab, Bitbucket | |
| • JIRA | |

WORK HISTORY

Full Stack Developer, 07/2024 - Current

DataRisk360 Consulting Services Private Limited - Remote

- **Full Stack Development:** Designing and developing **PHP-based applications** with **Laravel, MySQL, and Angular 18, and Node.js**.
- **Team Leadership & Mentorship:** Leading a team of developers, conducting **code reviews**, enforcing best coding practices, and mentoring junior developers.
- **Scrum & Agile Implementation:** Actively participating in **Scrum ceremonies**, including **daily stand-ups, sprint planning, retrospectives, and sprint demos** to ensure stakeholder alignment.
- **Metrics & Reporting:** Preparing **sprint velocity reports**, tracking project performance, and ensuring **on-time delivery** with **weekly and monthly metrics reports**.
- **Support & Performance Optimization:** Handling **critical production issues**, optimizing system performance, and ensuring minimal downtime.

Software Engineer, 10/2022 - 06/2024

IRIS KPO Resourcing (I) Pvt. Ltd. – Remote

- **Scrum Demo & Customer Engagement:** Presented **sprint demos** to stakeholders, highlighting project progress and gathering feedback.
- **PHP-Based Development:** Developed and maintained **PHP applications** using **Laravel**, ensuring high-performance and scalability.
- **Issue Resolution & Production Deployment:** Resolved **Tier 3 customer issues** and successfully managed **production deployments** to ensure smooth rollouts.

Module Lead, 03/2020 - 09/2022

Mindtree – Chennai

- **Agile & CI/CD Pipelines:** Managed development using **Agile methodologies**, leveraging **JIRA, Jenkins, Git, Bitbucket, AWS, and CI/CD pipelines**.
- **PHP & Web Development:** Led the development of applications using **PHP (CodeIgniter, Laravel), Angular 11, and Node.js**.
- **Metrics & Documentation:** Compiled **weekly and monthly sprint reports**, conducted **impact analysis**, and prepared **code review & unit testing reports**.
- **Project Planning & Collaboration:** Led **sprint planning**, considering risks and dependencies, and worked closely with **DevOps teams to configure AWS-based CI/CD pipelines with Docker**.
- **Customer Interaction:** Conducted **regular project demos** for customers, ensuring feedback incorporation and continuous improvements

Senior Software Engineer, 08/2014 - 01/2020

Aithent Technologies – Chennai

- **PHP Development & Architecture:** Developed **PHP-based solutions** using **LAMP stack, CodeIgniter, and MySQL** for **banking and healthcare domains**.
- **Rule Engine & Data Analytics:** Built a **Rule Engine system** integrating **SAS, R Programming, and MySQL** for data-driven decision-making.
- **Team Leadership & Client Engagement:** Led projects independently, collaborated with clients, and gathered requirements to align development with business needs.
- **Scrum & Reporting:** Tracked project progress through **detailed management reports**, sprint metrics, and issue resolution documentation.

Junior Software Engineer, 10/2012 - 12/2013

RuInfotech Solutions – Chennai

- **PHP & MySQL Development:** Developed and maintained **PHP applications** with efficient database management in **MySQL**.
- **Sprint Contribution & Documentation:** Assisted in **code development, bug fixing, and process documentation** to streamline workflows.
- **Collaborative Project Planning:** Supported senior engineers in **project estimates and sprint planning**, contributing to effective software delivery.

PROJECTS

Rule Engine System (*CodeIgniter, MySQL, jQuery, D3.js, SAS/R/Python Datasets*)

- **Independently designed and developed** a **custom rule engine** for processing complex datasets.
- Integrated **SAS, R, and Python datasets** for advanced data transformations.
- Created **interactive data visualizations** using **D3.js**, improving analytical insights.
- Optimized **database queries**, reducing data processing time by **40%**.

Kitchen Order Token System (*CodeIgniter, MySQL, jQuery*)

- **Solely built and maintained** a **real-time order management system** for restaurant kitchens.
- Developed **order tracking and notification features**, streamlining kitchen workflow.
- Scaled the system to support multiple restaurants.

Real Estate Platform (*Laravel, MySQL, Angular*)

- Contributed to the development of a **real estate management platform**.
- Built **backend APIs and database models** to handle property listings and user management.
- Collaborated with frontend developers to ensure seamless integration.

UK Tax & Insurance Application (*Laravel, MySQL, Angular, AWS*)

- Developed a **tax and insurance management system** for UK clients, ensuring compliance with regulatory requirements

- Designed and implemented **secure authentication and role-based access** using Laravel.
- Integrated **payment gateways and policy management modules** to streamline user transactions.
- Developed **dynamic dashboards and reports** using Angular
- Deployed and optimized the application on **AWS**, ensuring high availability and scalability.

EDUCATION

MCA: Computer Applications, 07/2007 - 05/2010

Prince Shri Venkateshwara Padmavathy Engineering College - Chennai, Tamil Nadu

GPA: 85.00

B.Sc.: Computer Science, 06/2004 - 05/2007

Prince Shri Venkateshwara Arts and Science College - Chennai, Tamil Nadu

GPA: 81.19

Higher Secondary: Computer Science, 05/2003 - 05/2004

New Prince Matriculation Higher Secondary School - Chennai, Tamil Nadu

GPA: 80.87

SSLC: General Studies, 04/2001 - 05/2002

New Prince Matriculation Higher Secondary School - Chennai, Tamil Nadu

GPA: 79.71
