Work Experience

Full Stack Web Developer

VAPRONIX WB PVT LTD-Noida, Uttar Pradesh

Full-time

0-15 days notice period

December 2024 to Present • Full-time

At Vapronix Web Pvt Ltd, I worked on the development of web-based games and internal admin tools that supported the company's gaming ecosystem. I collaborated closely with Unity developers, providing them with reliable backend APIs and ensuring smooth integration between the game engine and our web services. My role focused on building scalable backend modules, enhancing game-related features, and maintaining efficient communication layers between the web and Unity environments.

Full Stack Web Developer

FINLE PVT LTD-Indore, Madhya Pradesh

Full-time

February 2024 to December 2024 • Full-time

At FINLE, I worked on the development of a fintech platform focused on delivering vehicle loans and managing customer onboarding. I was responsible for building and maintaining the web backend and admin portal, ensuring secure data flow, smooth loan processing, and reliable system performance. My role also included leading a team of five developers, guiding them through feature development, code improvements, and system optimization. I collaborated closely with business and product teams to translate requirements into efficient technical solutions, contributing to the overall enhancement of the platform's stability and user experience.

Full Stack Web Developer

Manacle Technologies Pvt. Ltd-Noida, Uttar Pradesh

Full-time

January 2021 to February 2024 • Full-time

Manacle Technologies is a service + product based company where I worked across both environments. I started in the service team, delivering custom solutions and supporting client requirements, and was later moved to the product team to work on the company's SFA (Sales Force Automation) software. I was responsible for feature updates, maintenance, performance improvements, and ensuring smooth product functionality. I also guided a team working alongside me, helping them execute SFA-related tasks and maintain high delivery standards.

Education
