Databases: MySQL, MS SQL

Tools: Git

Achievement

Eventures (2015)

Quickly adapted to front-end development and successfully delivered four projects independently within a short period. Received client appreciation for efficiency, quality, and attention to detail.

ZF (2022-2025)

Led multiple projects while providing global client support. Ensured seamless project execution, delivering high-quality solutions that enhanced operational efficiency and streamlined workflows.

Projects

Contextual Document Comparison : (ZF) Apr'24 - Feb'25

Technology Used: Laravel, Angular 19, Jasmine , Karma, MySQL, Python

Contribution: I worked on both frontend development and API integration to build a solution for comparing documents contextually and labeling the differences. My contributions ensured that the document analysis was accurate and efficient.

Track to Closure : (ZF) Oct'21 - Jan'24

Technology Used: Laravel, Angular 18, Jasmine ,Karma,MySQL

Contribution: I was responsible for full-stack development and ongoing maintenance, developing a data representation tracking system for gate reviews and problem reports. My work ensured smooth functionality and seamless integration throughout the system.

Review Navigator : (ZF) Oct'21 - Jan'24

Technology Used: Laravel, Angular 18 , Jasmine ,Karma,MySQL

Contribution: I contributed to the development of an automated tool designed to facilitate gate reviews. My responsibilities included full-stack development and maintenance, streamlining the review process and improving overall efficiency.

Automotive Requirement Inspection and Suggestive Engine : (ZF) Feb'22 - Jun'23

Technology Used: Laravel, Angular, MySQL, Python

Contribution: I developed a system that analyzes and suggests improvements for requirement writing, aimed at helping requirement engineers. My role involved full-stack development and maintenance, ensuring the tool delivered accurate suggestions and improved writing practices.

Looqal : (Smitiv) Apr'21 - May'21

Technology Used: WordPress (PHP, HTML5, CSS3, AJAX, jQuery), AWS, React.js

Contribution: I managed content, customized the theme, and developed plugins for the Looqal e-commerce site. My efforts improved the site's functionality, creating a seamless user experience for customers purchasing cosmetics. Developed backend for the mobile application.

MGM : (BambeeQ) Mar'20 - Dec'20

Technology Used: Angular

Contribution: I developed key modules within the MGM online entertainment platform, focusing on enhancing the site's functionality and ensuring a smooth user experience for visitors engaging with various entertainment content.

Heartfulness : (Eventures) Dec'15 - Apr'16

Technology Used: WordPress (PHP, HTML5, CSS3, AJAX, jQuery)

Contribution: I contributed to content management, theme customization, and plugin development for Heartfulness, a global multilingual meditation project. My work ensured the platform was accessible and functional across multiple languages and regions.
