Full-Stack Software Engineer & Certified Professional Scrum Master I (PSM) with expertise in Laravel, ReactJS, WordPress, and PHP Full-Stack Development. Proven experience in building scalable web applications, WordPress Multisite solutions, and RESTful API integrations, bolstered by solid DevOps practices including CI/CD automation and cloud deployment pipelines. Adept at interfacing between development, operations, and Agile teams to architect high-performance web applications and maintain production stability across direct contract and enterprise environments.

EDUCATION

Master of Science - (Computer Technology) | Bharathiyar University *Jun 2001 – May 2003*

Bachelor of Science - (Computer Science) | Bharathiyar University *Jun 1998 – May 2001*

CERTIFICATIONS

Professional Scrum Master I (PSM I) | Scrum.org *Dec 2025*

IBM Business Analyst Certification | IBM *Apr 2025*

SKILLS

Full-Stack Development | PHP | Laravel | Python | WordPress Development | WordPress Plugin & Theme Development | WooCommerce | CodeIgniter | ReactJS | AngularJS | NodeJS | Git DevOps | CI/CD Automation | Cloud Deployment Pipelines | Agile Project Management | SOLID Principles | SQL Scripting | Unit Testing | MySQL | MongoDB | Apache | Nginx | AWS | JIRA | Confluence | AI-Assisted Development (GitHub Copilot, ChatGPT) | AI Prompt Engineering

WORK EXPERIENCE

Novel Minds LLC, WI, United States | Full-Stack Software Engineer *Jan 2026 – Present*

Direct Contract (Laravel | ReactJS | WordPress)

- Developing and maintaining full-stack web applications as a direct contractor using Laravel (backend), ReactJS (frontend), and WordPress.
- Architecting and implementing RESTful APIs in Laravel, integrating with ReactJS front-end components for seamless data flow and optimised user experience.
- Building and customising WordPress solutions including custom themes, plugins, and Elementor-based member dashboard features.
- Designed and developed custom Buddy Press group skins and member profile interfaces, engineering bespoke plugins to extend platform functionality and deliver tailored community experiences aligned with client requirements.
- Collaborating directly with client stakeholders to gather requirements, deliver iterative solutions, and ensure on-time project milestones without intermediary involvement.

Tata Consultancy Services, Kochi | Associate Consultant *Mar 2025 – Apr 2025*

- Oversaw deployments, cutovers, and post-release issue resolution.
- Managed release coordination and client reporting.
- Supported 3 lead consultants in enhancing system efficiency through focused training efforts during a one-month project.

KGiSL Technologies Private Limited, Coimbatore | Associate

Aug 2022 – Jan 2025

- Built and managed B2C Sony Alpha Universe multisite network (15 locales).
- Integrated MongoDB, custom plugins, creating UI components.
- Created SQL scripts for reporting, data cleanup, and plugin data processing.
- Directed B2B Core PHP platform with external APIs.
- Applied object-oriented design patterns in custom WordPress plugins for Sony Alpha Universe.
- Applied design patterns (Strategy, Observer) for dynamic content.
- Led cross-functional teams to streamline project workflows and enhance operational efficiency.
- Implemented process improvements that reduced response times for client inquiries and service requests.
- Facilitated stakeholder meetings to gather requirements and ensure alignment on project goals.
- Remediated Level 4 and Level 5 vulnerabilities identified in Qualys security scans by implementing critical patches, configuration hardening, and secure coding practices to ensure compliance with security standards.
- Developed custom WordPress modules using Advanced Custom Fields (ACF) plugin to enhance site functionality and user experience.

3WDirect, Coimbatore | Project Lead

Aug 2009 – Aug 2022

- Delivered CodeIgniter and WordPress platforms, including custom multisite solutions, achieving 99.9% uptime for clients.
- Refactored legacy PHP modules using SOLID principles and reusable design patterns, enhancing system performance by 20%.
- Led cross-functional teams of up to 10 members to achieve project milestones, successfully managing over 20 clients and ensuring on-time project deliveries.
- Implemented CI/CD pipelines to automate deployment processes, reducing deployment time by 15%.
- Developed custom WordPress plugins and themes to enhance functionality for client websites, improving user engagement by 25%.
- Utilised Agile methodologies to streamline project workflows, resulting in a 30% increase in team efficiency.

TECHNICAL EXCELLENCE

- Applied design patterns in PHP/Laravel/WordPress projects.
- Refactored legacy codebases using SOLID principles.
- Integrated secure REST APIs across PHP and Laravel Applications.
- Developed modular UI components with ReactJS.
- Led Git DevOps deployments.
- Ensured 99.9% uptime with structured release workflows.

ARCHITECTURE AND ENGINEERING SKILLS

DevOps Practices | Design Patterns | SOLID Principles | Agile Project Management | Incident/Release/Change Management | Plugin Architecture | Application Security | Production Support | Unit Testing | Code Reviews | SQL Scripting
