

Zaid Malek *Backend Developer*

✉ zaidmalek6254@gmail.com ☎ 8155043846 [linkedin.com/in/malek-zaid](https://www.linkedin.com/in/malek-zaid)

Professional summary

Backend Developer with 3+ years of experience building scalable Laravel-based applications and optimizing complex SQL queries. Experienced in performance tuning, REST API design, and cloud deployment (AWS & Azure). Improved application load times and database performance through query restructuring and indexing strategies. Passionate about building efficient, production-ready backend systems.

Skills

PHP (Laravel, Yii2, CodeIgniter)

REST API Design

MySQL / PostgreSQL

SQL Optimization

Javascript / Node.js

HTML5 / CSS3

Amazon Web Services

Docker

Query Performance Tuning

Microsoft Azure

OOP

Git

Linux

Work history

Simform

PHP Developer

- Designed and developed scalable backend APIs and core business logic in Laravel across real estate systems, project management tools, sports event management platforms, and other domain-specific applications.
- Reduced API response time by ~60–80% by restructuring complex SQL queries, introducing composite indexes, and resolving N+1 query issues in high-traffic modules.
- Optimized complex multi-table joins and reporting queries, improving database performance and reducing production server load.
- Integrated third-party services including MLS data providers, Stripe payment gateway, Google Maps API, Twilio SMS services, and AWS (S3, Route 53), implementing secure REST communication and webhook handling.
- Refactored legacy codebases to improve modularity, maintainability, and adherence to Laravel best practices.
- Mentored junior developers, conducted code reviews, and enforced clean architecture and performance standards.

09/2023 – Present
Ahmedabad

Trainee PHP Developer

01/2023 – 07/2023
Ahmedabad

Education

B. Tech in Computer Science and Engineering

DEPSTAR (CHARUSAT University)

10/2020 – 05/2023

Diploma in Computer Engineering

B and B institute of Technology

08/2017 – 08/2020

Certificates

- AWS Certified Cloud Practitioner (CLF-C02)
- Microsoft Certified: Azure Developer Associate (AZ-204)
