

JYOTHIS MARIYA MATHEW

Team Lead

+91 7558918337 jyothismariya.matthew@gmail.com [linkedin.com/in/jyothis-mariya-mathew](https://www.linkedin.com/in/jyothis-mariya-mathew) Kochi, Kerala, India

Summary

Full-stack developer with 9 years of experience in PHP and Java. Prioritizes usability and performance enhancements to deliver top-notch solutions. Demonstrated history of developing efficient, cost-effective projects. Dedicated and self-motivated achiever committed to success. Adept at managing multiple tasks in high-pressure environments. Works effectively both as part of a team and independently. Excellent hands-on experience in PHP, Laravel, Java, Spring Boot, Vue.js, Angular, and MySQL.

Experience

Innovature Software Labs	Kochi
Team Lead	01/2017 - Present
- Developed scalable full-stack applications using PHP, Laravel, Cake PHP, Java, Spring Boot, Vue.js, Angular, and MySQL - Built multi-tenant workforce and employee management systems handling millions of daily records. - Optimized backend for high-performance APIs with response times under 1 second. - Deployed and maintained applications on AWS (ECS, RDS, S3, SES, CloudWatch) for reliable and scalable infrastructure	

Education

Nirmala College Of Information Technology	Chalaky
Master of Computer Applications (MCA)	08/2017 - 07/2019
Nirmala College Of Information Technology	Chalaky
Bachelor of Computer Applications (BCA)	07/2013 - 04/2016

Skills

Languages: PHP | Java | Spring Boot | Laravel | Vue Js | Angular | Angular Js | JQuery | CakePHP

Database & Data Tools: MySQL | PostgreSQL | BigQuery

Cloud, DevOps & Tools:

GCP | AWS | S3 | RDS | EC2 | ECS | CodePipeline | CloudWatch | SNS | SES | Jenkins | Git | GitHub | GitLab | SonarQube | Docker | Linux | WebSockets | Elastic Search

Projects

Kitchen Management Platform	2025
Role: Team Lead & Backend Developer	
Tech Stack: Laravel, Vue.js, Domain-Driven Design (DDD), MySQL	
- Built a workflow management system to streamline kitchen operations - Developed task assignment and real-time progress tracking features - Implemented a visual process flow designer for food preparation stages	

Workforce Attendance & Compliance System2024

Role: Team Lead & Backend Developer

Tech Stack: Laravel, Vue.js, GraphQL API, CSV Processing, MySQL

- Designed a high-scale attendance and compliance automation platform
- Processed ~2 million attendance records daily in under 15 minutes
- Implemented overtime calculation, reporting, and email alert automation

Advertisement Management Platform2024

Role: Team Lead & Backend Developer

Tech Stack: Laravel, Vue.js, Java, Analytics Reporting

- Developed an advertisement workflow system for design and publishing
- Enabled banner/video distribution across multiple media channels
- Built reporting dashboards for ad performance and engagement metrics

Video Advertisement Distribution Service2023

Role: Full Stack Developer

Tech Stack: Spring Boot, Angular, REST APIs

- Built a platform for uploading and managing advertisement videos
- Developed customizable ad players with embeddable scripts
- Implemented advertisement analytics and reporting module

Document Management System2022

Role: Full Stack Developer

Tech Stack: CakePHP, AngularJS, Elasticsearch

- Developed a file storage and document indexing platform
- Implemented metadata extraction and full-text search using Elasticsearch
- Supported upload and retrieval of multiple file formats

Key Achievements

High-Scale Data Processing

Developed workforce system processing 2M daily attendance records in 15 minutes.

Workforce System

Developed a workforce system handling 50,000+ employees with sub-second API responses.

Recipient of the **Shining Star** Award for exceptional leadership and contributions to Video Advertisement project, recognized by Innovature for dedication to excellence.
