

Aparna Rajendran

React Developer

Work Experience

React Native Developer 2024 - current

Reubro International | Kochi

- Developed and maintained cross-platform mobile applications for iOS and Android using React Native, ensuring consistent functionality and user experience across devices.
- Collaborated with Frontend teams to translate design wireframes into highly responsive, user-friendly interfaces.

Technical Trainer 2023- 2023

KGISL Microcollege I Coimbatore

- Delivered comprehensive training sessions on frontend web development, including HTML, CSS, BOOTSTRAP, JavaScript, React JS etc. for students and professionals.
- Conducted both theoretical and practical sessions, focusing on real-world applications and industry best practices.

MERN Stack Intern 2022- 2022

MaiTexa InfoSolutions I Calicut

- Development of web applications using the MERN stack (MongoDB, Express.js, React, Node.js) to build scalable, full-stack solutions.
- Developed RESTful APIs using Node.js and Express, ensuring efficient data flow between the frontend and backend.

Projects

SandwYch Application

Reubro International

- It is a live project on development, the application is to assist in managing daily tasks, medication schedules, and health monitoring for patients.
- Integrated real-time communication and health tracking features using React Native and Firebase for cross-platform functionality..

E- Commerce Restaurant Website (Full Stack)

- It's an E-Commerce Website. By clicking the food item, you can add foods to the cart and wishlist. There are also options to increment and decrement the item and delete it.
- Done by using React JS, Node JS, MongoDB.

Weather App

- A sample weather app by using an external API through which we can find any details related to weather conditions.
- It is done by using React JS, JavaScript, and CSS.
